Delivering *anywhere* in the U.S. from South San Francisco

Introducing Quality Raised Garden Beds – Garden Collars

- A super versatile, modular and affordable product!
- No screws, no nails, no tools, no staking, minimum assembling required (when supplied in a flat carton box). Simply open and put them on the ground or on top of one other to get the desired height.
- Made of 7.7" x 0.8" planed solid white wood boards (Scandinavian spruce) and specially designed galvanized steel hinges that lock collars in place firmly.
- Smooth surface - perfect for painting. Add even more colour to your garden!
- Light and sturdy - ONLY ~19.8 Lb each.
- Heat Treated (better durability *without* chemicals), Kiln Dried, Debarked. The timber comes from sustainably managed forests.
- Reconnect the sides into various configurations: square, rectangle, hexagon, even triangle, if you like.
- 1 size available (when opened): 48" x 40"; 7.7" high.

To keep the wood in good shape for a long time you might consider coating the collars with an eco-friendly finish/paint (like Linseed oil, a natural waterproofing and protecting solution that will not harm the environment). Lining the inside is also an option (with building paper, for example).

** Due to temperature & humidity changes in storage and during transportation, an occasional crack or split might appear. The protruding ends of the hinges can be sharp, so please handle with care. Simply use your gardening gloves at all times when setting up your raised beds!*

2 Double height vegetable beds

One collar opened , the other—folded (above)
